

Create a table in LibreOffice writer as shown below with following fields-

Day	Period I	Period II	Period III	Period V
Sunday	Math	Physics	Chemistry	Computer
Monday	Physics	Math	Chemistry	Computer
Tuesday	Computer	Physics	Math	Chemistry
Thursday	Computer	Chemistry	Physics	Math
Friday	Math	Chemistry	Computer	Physics

Do the following operations-

- Create margin at the top and bottom 1.1 inch and right & left 1.5 inch
- Create landscape orientation & set paper size as A4
- Insert Period IV column after period III
- Insert Wednesday row above Thursday row
- Insert page number center align and Arial font
- Set table font as "Times New Roman" and size of 13
- Insert Header with title "Time Table" to the right corner.

Create the following worksheet in LibreOffice Calc:

	A	B	C	D	E	F	G
1	Item No.	No. of Items	Item Price	Tax	Total Price Before Tax	Total Price After Tax	Rate
2	100	115	30				
3	101	256	12				
4		49	56				
5		23	150				
6		840	5				
7		200	56				
8		294	300				
9		4	90				
10							
11	Count of items	?					
12	Average of Tax	?					
13	Min Item Price	?					
14	Max Item Price	?					

For the above table find the following:

- Tax (If Item Price is less than 100, Tax is 50, and otherwise it should be 100).
- Total Price Before Tax= No. of Items * Item Price.
- Total Price After Tax= Total Price Before Tax + Tax.
- Fill values in column Rate (If Total Price After Tax > 3500 then the rate is "HIGH", otherwise it is "Reasonable").
- Find Count of items, Average of Taxes, Min Item Price and Max Item Price.

Create a new presentation in LibreOffice Impress consisting of 3 slides

Slide 1: Enter the heading “ABC Pvt. Ltd”.

Enter the sub heading “John John”

Insert any appropriate logo image below sub heading.

Create the following hyperlink <http://www.google.com> on the image.

Slide 2: Create a BAR chart using the following data:

Items	Sales (Amount in ₹)
Apple	12000
Mango	10000
Grapes	20000
Orange	15000
Pineapple	13000

Slide 3: Enter the following text: (font style= Arial, font size=24, Bold, Italic, & Underlined)
“Thank you!!!”.

1. Prepare the following mark sheet in LibreOffice Calc:

S.N	Name	English	Maths	Science	Hindi	Computer	Total	Percentage	Result	Division	Remarks
1	Ram	54	45	42	78	50					
2	Shyam	78	54	51	58	60					
3	Hari	69	56	84	85	78					
4	Gopal	45	33	49	40	59					
5	Sita	58	62	67	50	89					

- Result condition "Pass" if all subjects are greater than or equal to 33 otherwise "Fail"
- Division condition if result is "Pass" and percentage is greater than or equal to 80 then "Distinction", if percentage is greater than or equal to 60 but less than 80 then "First", if percentage is greater than or equal to 45 but less than 60 then "Second", if percentage is greater than or equal to 33 but less than 45 then "Third", otherwise "***"
- Remarks= if percentage is greater than or equal to 80 then "Grade A", if percentage is greater than or equal to 60 but less than 45 then "Grade B" otherwise "Grade C".

Perform the following task in LibreOffice Writer-

- a. Create three blank pages where 1st and 3rd pages are in portrait orientation and 2nd page is in landscape orientation.
- b. On 2nd page, insert a table with 3 row X 5 columns. Display splitting of cells vertically.
- c. On third page, write 5 sentences about your course and show usage of track changes feature.
- d. Assign different header and footer within a document for each page.
- e. Set the watermark "Computer Operator".

- i. Create a presentation on any topic of minimum three slides and save as RegistrationNo.odp. Do the following on the saved presentation:
- ii. Create a Master slide and add following formatting:
 - a. Add a logo on the left side in the header. The Format of the header title should be – Font as Cambria, Font Color as Blue and Font Size as 18.
 - b. Apply background color to the slides. Set the font size to 14.
 - c. Add Date and slide Number in the footer.
 - d. Apply the Master Slide Format to all slides

Type the following text in LibreOffice writer:

A writer is a person who uses written words in different writing styles and techniques to communicate ideas. Writers produce different forms of literary art and creative writing such as novels, short stories, books, poetry, travelogues, plays, screenplays, teleplays, songs, and essays as well as other reports and news articles that may be of interest to the general public. Writers' texts are published across a wide range of media. Skilled writers who are able to use language to express ideas well, often contribute significantly to the cultural content of a society.

- a) Apply Page formatting to the text as Justified and add border to the page
- b) Insert two footnotes for the word travelogues and screenplays as follows
 - i) Footnote for Travelogues: a book, piece of writing, film, etc. about travel
 - ii) Footnote for Novels: a story prepared for television production
- c) Insert Header to the Page and insert Current Date and Page Number Field in the header

Open LibreOffice Calc and create a table in the spreadsheet in the following format:

	A	B	C	D	E	F
1	Sno	FirstName	LastName	DateOfBirth	Salary	
2						
3						
4						
5						
6						
7						
8						
9						

Do the following functions:

- Add data of 4 persons.
- In Column 'F' display current date using function
- Using formula display Max Salary in cell 'E8' and Min salary in 'E9'

Create a presentation of about 3 different modes of transportation:

Perform the following:

- i) The Title slide "Modes of Transport" with layout as 'Title'.
- ii) The layout of the presentation should be Title and two content
 - Each slide content: Image of Transport Mode from Gallery and one line about the image.
The title should be name of Transport mode like 'Cycle'.

Enter the following data in LibreOffice Calc:

	A	B	C	D	E	F	G
1	NAME	MARKS1 (100)	MARKS2 (100)	MARKS3 (100)	TOTAL	Percentage	GRADE
2	Sumit	70	58	78			
3	Akash	82	65	58			
4	Neelima	56	44	92			
5	Kiran	91	80	84			
6	Karuna	40	59	71			
7	Saumya	77	82	76			

Perform the following:

- i) Insert a new row at beginning above Row No 1 containing heading "Student Data", using merge & centre
- ii) The Font-size of the Student Data should be 18
- iii) Highlight the heading rows with yellow color
- iv) Calculate the total marks and percentage using appropriate formula. The Total marks are out of 300.
- v) Compute the grades using formula based on following criteria
 - a. If percentage ≥ 90 then grade = A
 - b. If percentage < 90 and ≥ 70 then grade = B
 - c. If percentage < 70 and ≥ 50 then grade = C
 - d. If percentage < 50 then grade = E

Create a document in LibreOffice writer and type the following text:

Book Name, Author, Edition, Price (Rs)

IT Tools and Network Basics, Satish Jain, 6th Edition, 450

Programming in ANSI C, E. Balagurswami, 8th Edition, 400

JavaScript, OReilly, 5th Edition, 520

- i) Select Text and Convert the text to table
- ii) Sort the table in ascending order of Price
- iii) Format the header row as Centre align, Background color and Text Color
- iv) Add Caption to the Table "Computer Books".
- v) Format the table with Font Arial, Font size 12, Border, Border Color, Currency format for the Price column

Open LibreOffice Impress and create a presentation about O-Level Course with the following details:

- i) The Title slide containing Topic Name "NIELIT O-Level Course" and Prepared By: "XYZ"
- ii) Create outline of Presentation as About Course, List of Modules Names, Thank You Note
- iii) About Course: Write a few lines about O-level Course
- iv) List of Modules: Create a bulleted list of 4 O-Level Modules.
- v) Thank You: Apply any Fontwork to the "Thank You" note.

- a. Type the following text in LibreOffice writer:

National Institute of Electronics & Information Technology (NIELIT), (erstwhile DOEACC Society), an Autonomous Scientific Society under the administrative control of Ministry of Electronics & Information Technology (MoE&IT), Government of India, was set up to carry out Human Resource Development and related activities in the area of Information, Electronics & Communications Technology (IECT). NIELIT is engaged both in Formal & Non-Formal Education in the area of IECT besides development of industry-oriented quality education and training programmes in the state-of-the-art areas. NIELIT has endeavoured to establish standards to be the country's premier institution for Examination and Certification in the field of IECT. It is also one of the National Examination Body, which accredits institutes/organizations for conducting courses in IT in the non-formal sector. As on date, NIELIT has forty three (43) centers located PAN India.

- b. Perform following

- i) Apply 2-column page set up to the text
- ii) Create a Header "National Institute of Electronics and Information Technology" and insert NIELIT Logo in the Right Corner of the header.
- iii) Insert Phone no and Hyperlink to NIELIT website <https://www.nielit.gov.in> in the footer

Open a Blank spreadsheet in LibreOffice Calc and prepare the data as shown below.

	A	B
1	Fixed Line Operators	Subscribes (in Millions)
2	BSNL	7.58
3	Reliance Jio	5.76
4	MTNL	2.70
5	Airtel	5.88
6	Tata Tele Services	1.59
7	Quadrant	.24
8	Vi	.55
9	Reliance Communications	.17

Do the following:

- i) Sort the Data in descending order of Column B 'Subscribers'
- ii) Prepare a BAR Chart which shows Market share of each fixed line operators The chart should have:
 - a. A Title as "Market Share of Fixed Line Operators"
 - b. Data Legends at the bottom
 - c. Show Data Labels as 'percentage' and 'category' separated by space

Create a presentation on LibreOffice Impress as per the following details:

- i) A Title Slide with Layout as 'Title', Title as 'LibreOffice' with Font Size as 24, Font as Cambria, Font Color as Green
- ii) Add 3 slides explaining main features of 3 Tools as bulleted Lists: LibreOffice Writer, LibreOffice Calc and LibreOffice Impress. Apply different Background color to all slides

Open LibreOffice Impress and prepare a presentation about three types of input devices of computer, one slide for each device. The Title slide should have name of the Topic as "Types of Input Devices" with Font Size as 24 and Background color light blue. Each slide Layout should have 'Title and Content' and to be created as follows:

- i) The title of each slide should be 'Input Device'
- ii) The slide should contain Image of the device and insert a text box to write about the device.
- iii) Apply any Transition effects with no sound to all slides

Create a Book Document in LibreOffice writer to insert Table of Contents as follows:
The book should have a Title Page and 3 chapters one on each page

- i) Each Chapter should have a Chapter Name, Introduction heading, Topic Heading and Sub Topic Heading as:
 - Chapter Name
 - Introduction
 - Some Contents
 - Topic
 - Some Contents
 - Sub-Topic
 - Some contents
- ii) Apply Page Style Border to all pages
- iii) Set the Left and Right Margin as 5.00 cm and Top and Bottom margin as 10.00 cm
- iv) Set Watermark as author's Name at a 45-degree angle and 60% transparency.
- v) Apply proper formatting to create a Table of Contents and then Insert it at the beginning of the document

- a) The following data is to be created in a LibreOffice Calc spreadsheet.

SalesPerson Id	Product	Price
A001	Dining Table Set	50,000
A003	Garden Set	28,000
A004	Sofa Set	80,000
A001	Dining Table Set	45,000
A003	Sofa Set	55,000
A002	Sofa Set	50,000
A003	Sofa Set	52,000
A001	Wardrobe	70,000
A002	Dining Table Set	50,000

- b) Create a Pivot Table from the data which should display
- Product-wise count of products and total price for each SalesPerson ID.
 - Sub-totals for each SalesPerson ID.

Open LibreOffice writer and type the following:

The term river system refers to the 'river along with its tributaries'. Based on their source, the Indian River system is classified into - Himalayan Rivers and Peninsular Rivers.

HIMALAYAN RIVERS

It originates from the Himalayas and flow through the Northern Plains which are: The Indus River System, The Ganga River System, The Yamuna River System, The Brahmaputra River System

PENINSULAR RIVER SYSTEM OR PENINSULAR DRAINAGE

It emerges mainly from the Western Ghats. Since the Western Ghats form a 'water divide', these rivers either flow eastwards into the Bay of Bengal or into the Arabian Sea towards the west. They are 'rain-fed' rivers. The major Peninsular River Systems are: Mahanadi, Godavari, Krishna, Cauvery

Do the Following:

- i) Insert Header "River System of India" Bold and Centrally Aligned with Font-size of 18
- ii) Add line spacing of 0.20cm before and after the paragraph and line spacing of 0.10 cm
- iii) Highlight the names of all River Systems with Yellow and add a Background Color
- iv) Add comment "Himalayan Rivers" and 'Peninsular Rivers' to the respective paragraphs

Prepare a presentation in LibreOffice Impress on any 3 Religious places in India. In the presentation:

- i) Add the Title slide and create one slide each for the religious place.
- ii) Apply a suitable Template from the gallery to the presentation

Open a Blank spreadsheet in LibreOffice calc and prepare the data to show the use of following functions:

- i) Sum
- ii) Max
- iii) Min

Enter the following data in LibreOffice Calc:

Sno	Name	Dept	Salary (Rs)	Length of service (Years)
1	Anju	Sales	20000	10
2	Manju	Purchase	40000	15
3	Geeta	Sales	32000	30
4	Ram	Account	38000	50
5	Seeta	Marketing	42000	22
6	Shyam	Sales	42000	5
7	Anita	Accounts	46000	12
8	Asha	Admin	38000	8

Do the following using various functions:

- Count the number of persons in 'Sales' Department having Salary > 30000
- Find the maximum salary in Sales Department
- Find the minimum length of service of account department

i) Create a document in the following format in LibreOffice writer:

Dear Mr Ram,

As per your request, the price details of the following electronic products are being sent for your information:

Sno	Product Code	Description	Cost Price	GST
1	P001	Television	50,000	1000
2	P002	Refrigerator	75,000	1500
3	P003	Juicer	2,000	40
4	P004	Coffee Maker	2,500	50

Thanks, and Regards

Mr A.K.Verma
Sales Head
XYZ Company

ii)

- Create the table with Name as Sales Table, Number of columns 5, No of Rows 5, Heading Row 1.
- Insert Row before Row No 3 with details as Sno=5, Product Code=P005, Description=Microwave, Cost Price=51000, GST=1020
- Add Table Caption as "Price List of Electronic Products".
- Centrally Align the Cost Price and GST Column.

Open LibreOffice Impress and create a presentation file with 5 slides write "computer". Apply transition effect so that slide advances every two seconds automatically.

- a) Create a table in LibreOffice Calc:

The monthly expenditure done by Mr Ram on different services is as follows:

	A	B	C	D	E
1	Month	Electricity Bill	Phone Bill	Water Bill	Newspaper Bill
2	Jan	1000	400	200	200
3	Feb	1100	350	350	250
4	Mar	1500	520	300	200
5	Apr	2000	600	470	300
6	May	2500	550	800	250
7	Jun	3200	700	750	350

- b) Do the following:
- Add 'Total Expenditure' column to right of 'Newspaper Bill' i.e in Column 'F'.
 - Display the total of monthly expenditure using formula in each row.
 - Create a Chart' With Month Name in X-Axis and Expenditure in Y-Axis. Add the following to chart:
 - Chart Title, X-Axis Title, Y-Axis Title, Data Legends

Open LibreOffice Impress and create a presentation with 5 slides. Edit master slide to display any roman number at the top right corner of every slide. Write "Computer " as notes for the second slide. Apply to all the slides.

- a) Type the following paragraph in LibreOffice writer:

A Read only Memory is a memory unit that performs the read operation only, it does not have a write capability. This implies that binary information stored in a ROM is made permanent during the hardware production of the unit and cannot be altered by writing different words into it. Whereas a RAM is a general-purpose device whose contents can be altered during the computational process, a ROM is restricted to reading words that are permanently stored within the unit. The binary information to be stored, specified by the designer, is then embedded in the unit to form the required interconnection pattern.

b)

1. Give a suitable title to the paragraph and make it bold and italic.
2. Add a header with the text "Read Only Memory."
3. Add footer as "NIELIT Itanagar Centre" and also add page number on the bottom of the documents.
4. Add Drop Cap at the start of paragraphs.

Create a page with two frames using HTML: -

- The left frame of page contains the list of names and images of the Indian national leaders.
- On the left frame when you click on the image, the details will be shown on the right frame.

Write a HTML code to generate following output:

Country	Population (In Crores)	
INDIA	1998	85
	1999	90
	2000	100
USA	1998	30
	1999	35
	2000	40
UK	1998	25
	1999	30
	2000	35

Write a program to find the sum and product of two numbers using JavaScript.

Design an html form to take the information of an article to be uploaded such as file path, author name, type (technical, literary, general), subject topic (to be selected from a list) etc. One should provide button to Submit as well as Reset the form contents.

Create an html page with all the different text styles (bold, italic and underlined) and its combinations on separate lines. State style of each line in its text.

Write html code to generate following output.

- i. Coffee
- ii. Tea
- iii. Black Tea
- iv. Green Tea
- v. Milk

Design an HTML page to print Hello world in bold & Italic Form.

Write a HTML program to create a form for the subscription of a magazine. The form should contain Name, Address, City, State, Pin Code. Magazine should be selected from 5 different magazines using checkbox. Subscription is available for 1 year or two years. Radio buttons shall be used to select subscription period. The page should have a submit button.

Write a HTML Script to insert a hyperlink. Create a hyperlink in html which when clicked links to www.google.com in a new window.

What do you mean by <select> tag? Design a web page with 4 select tag with 4 option each?

Design Simple Registration form with First Name, Last Name, Password, E-Mail id, Phone No, Address, Gender, DOB in the personal details section and Degree, Engineering Branch, Signature, Photo and Resume upload in Educational Details section.

Design a simple table with First Name, Last Name, Marks, Roll No & Course using W3.CSS.

Create an html page with following specifications: -

- a. Title should be "about my college".
- b. Put the image in the background.
- c. Place your College name at the top of the page in large text followed by address in smaller size.
- d. Add names of Courses Offered each in a different colour, style and typeface.
- e. Add scrolling text with a message of your choice.

Write a java Script for counting odd, even and prime numbers from 1 to 100.

Create a form for student information. Write Java Script code to find total, average, result (pass/fail) and grade.

Design the Form for library membership having fields as Name, Father's Name, Address, email Id, Membership duration (one year, two year, three year) with submit button. The membership duration should be in drop down list. Address is to be filled in text area. Apply validation attribute of mandatory field for all the fields. Apply validation attribute for email id also.

The form should be properly aligned with Form Title as "Library Membership Form".

Design a page using HTML and CSS with following details:

- a. The page should have background colour.
- b. The page should have title as 'My Page'.
- c. The page should have coloured and centre aligned heading as 'My Introduction'.
- d. Write two – three lines about yourself in first paragraph.
- e. Write down your qualification details of 10th and 12th class in tabular format. The table should have fields as Sr.No, Class, Board, Year of Passing, Percentage.
- f. Write down your hobbies in bulleted order.
- g. Insert any image from pictures folder and give caption as My profile photo. The image size should passport size.

Write a program in JavaScript to accept the name of the user, sales price of item and discount price from the user. Calculate the net sales price. Display the bill details containing Name of the user, sales price, discounted price, and net price using any popup boxes.

Write down a program in JavaScript to enter the name of the student by the user. Enter marks of three subjects physics, chemistry and maths out of 100 for each subject. Calculate the total of marks and check if the total marks are greater than 150 then display message "PASS" otherwise display message "APPEAR AGAIN".

Write down a program to show the implementation of universal selector using CSS. Make use of background properties or font colour or borders properties for implementation.

Read the table:

FIRST NAME	LAST NAME	EMAIL ADDRESS	Phone
Hillary	Nyakundi	tables@mail.com	11111111
Lary	Mak	developer@mail.com	22222222

- Prepare the above table using HTML.
- Provide cell spacing of 10 px and cell padding of 10 px.
- Add another phone number of Lary with colspan concept.
- Provide background color red on second row and text color blue with text alignment centre.

- a) Create a JavaScript program to accept the first, middle, last names of user.
- b) Write a JavaScript program to find the factorial of given number.

Create a web page to demonstrate font variations.

Write CSS code to provide shadow and greyscale on image

Create an HTML Form as per the following details:

The image shows a web form with a light gray background. It contains three input fields stacked vertically, each with a label above it. The first field is labeled 'First Name' and contains the placeholder text 'Your name...'. The second field is labeled 'Last Name' and contains the placeholder text 'Your last name...'. The third field is labeled 'Country' and is a dropdown menu with 'Australia' selected and a downward arrow on the right. Below these fields is a wide green button with the text 'Submit' in white.

First Name

Your name...

Last Name

Your last name...

Country

Australia ▼

Submit

- Check that user filled in all required fields or not. If not then provide a message to fill all the fields otherwise provide thank you for submission message.
- Length of first name and last name values should be in between 2 to 30.

Create a gradient background and make a post for NIELIT related Courses with logo of NIELIT and properly mention the email id, social media accounts, contact info and address etc.

Write the code to place a fixed button at bottom right of the screen in html.
